Quality Policy

Applied Plastics LLC strives to continually provide best in class components and manufacturing aids to our medical device customers. This is accomplished through our dedicated team of employees, our Quality Management System and continued investment in leading edge manufacturing technology to provide a superior customer experience.

- This policy is continuously communicated to all Applied Plastics employees, whose collective effort contributes to maintaining the effectiveness of the QMS and full compliance with applicable standards, regulatory and customer requirements.
- This policy provides a framework for the establishment and review of our Quality Objectives.
